

## **Alternate Side Street Parking**

The purpose of alternate side street parking is to encourage the efficient flow of traffic for law enforcement, firefighting, and emergency medical services, as well as to improve efficiency for snow plowing, salting, street sweeping, leaf collection, garbage/recycling collection and street maintenance.

Instead of posting every street, which would be costly and may be unsightly, the City uses an areawide posting by installing regulatory signs at the entrances of the city.

The City's alternate side street parking regulations are as follows, unless otherwise posted on the street:

### **EVEN SIDE OF THE STREET:**

No Parking 12:01 am - 4:00 pm on Monday, Wednesday, Friday, Sunday

### **ODD SIDE OF THE STREET:**

No Parking 12:01 am - 4:00 pm on Tuesday, Thursday, Saturday

The City encourages the public to comply with these important regulations to improve public safety and the delivery of other municipal services.
