

**Parks Open House #2 (Recorded Presentation)
August 7, 2020**

The City of Corning is preparing a long-range strategy for its parks. The strategy will shape the facilities and appearance of our parks to help meet the public's recreational needs.

On August 20, 2019, the City held Open House #1 to gather public input and share possible low-cost ideas. In order to gather additional input, the City is scheduling Open House #2. Due to the Covid Virus, this will be a recorded presentation that the public can view on the City's website by clicking the "Parks Open House" tab at the top of the City's homepage. (www.cityofcorning.com)

The Parks Open House #2 (Recorded Presentation) will be available for viewing from Monday, August 10, 2020 through Sunday, August 23, 2020. Community feedback will be gathered through the use of survey. The survey link will be provided on the page with the recorded open house.

The draft report of the Parks Strategy can also be viewed by visiting the City's website and clicking on the "Parks Strategy" under the "Strategies" tab on the top of the homepage.

Input from the Open House will be used by the Parks Improvement Committee to help guide their recommendations for this new long-range strategy.
